**The UCEA 2016 Call for Proposals is released!** A huge thank you to the 2016 Convention Program Committee for preparing such a wonderful call: April Peters-Hawkins (University of Georgia), Dana Thompson Dorsey (University of North Carolina-Chapel Hill); Kristy Cooper (Michigan State University); and Wayne Lewis (University of Kentucky).

The 30th Annual UCEA Convention theme, Revitalizing Education in Complex Contexts: Re-envisioning Leadership, Refreshing Practice, Redefining Student Success, is intended as an occasion to talk, meet, think, and organize for a renewed vision, goal-setting and coalition-building that will bring new life and meaning to the role of education and educational leadership. The theme highlights the context of the convention location in Detroit, a city that has faced significant challenges and undergone tremendous change, with a lens on the educational, political, civic, corporate, and community revitalization that occurs in such contexts. As such, the theme draws attention to the complex contexts (communities, political environments, and policy contexts) in which we research, lead and practice in the field. Such contexts are complex due to the multidimensional and sometimes competing interests inherent in these various spaces, and because they involve interconnections and intersections among various people, challenges, changes, and politics which often directly impact and influence education policy, leadership practice, and student outcomes.
